

DILLI KE KAHANI, DADAJI KE ZUBANI

An interactive session, between a grandparent and the children of class 1, was conducted on Friday morning. Dadaji kept the children enthralled with stories of how New Delhi has changed, from an old city with narrow lanes, to one of skyscrapers; from people walking or cycling to their destinations, to now, when streets are packed with automobiles.

Anecdotes from his childhood and schooldays kept children interested. He spoke about, how the area in which St Mary's School is situated, used to be a jungle area. He also described, the simplicity of lives in those days, the food habits, and social interaction between friends and family. This prompted the children to ask lot of questions.

He kept their thinking juices flowing, by posing questions about monuments of Delhi, its airport etc., to which children responded enthusiastically. In all, an informative and entertaining session, which benefitted the children immensely.
